

**MAIL BOX OR MAIL BOX POST
REPLACEMENT OR REPAIR**

If your mail box or mail post is in need of replacement or repair, your Century Oak Community Association has found a source for you that has our conforming community design; that being a post with indentations on the side and a finial on the top. This vendor does most of the new builder installations in Northern Virginia, but also does replacements. They have an excellent reputation. The web site is mailboxesplusva.com or call Main Street Mailboxes & More, Inc., 703-753-5521. Please consider this source if you are looking for the convenience of a professional installer to spruce up your mail box/post.

We have negotiated a discount for our community, which you should ask for when ordering a post and/or box. The prices include installation and removal of the old mailbox unit. May consider a group rate if you can organize several neighbors. You are welcome to ask for details

Post & box -	\$150
Replace box only	\$35
Replace post only	\$135
Paint post & replace finial	\$55
Paint post & replace box	\$60
Paint post	\$25

All prices include installation and 1" white numbers for any new boxes.

The company generally asks for a 2-week window to make the posts and work the installations into the schedule. If it is a knockdown, the company tries to get out there within 24 hours.
